Storyline Suggestion

Last night we were celebrating creating the greatest intergalactic spice blend in history, using a new spice we've discovered on Mars. This blend is going to be a top selling unique product as no one else has it.

Unfortunately, during the party, it seems the mixture has gone missing, possibly stolen! We need to find out if we can track it down.

Custom Puzzle Ideas

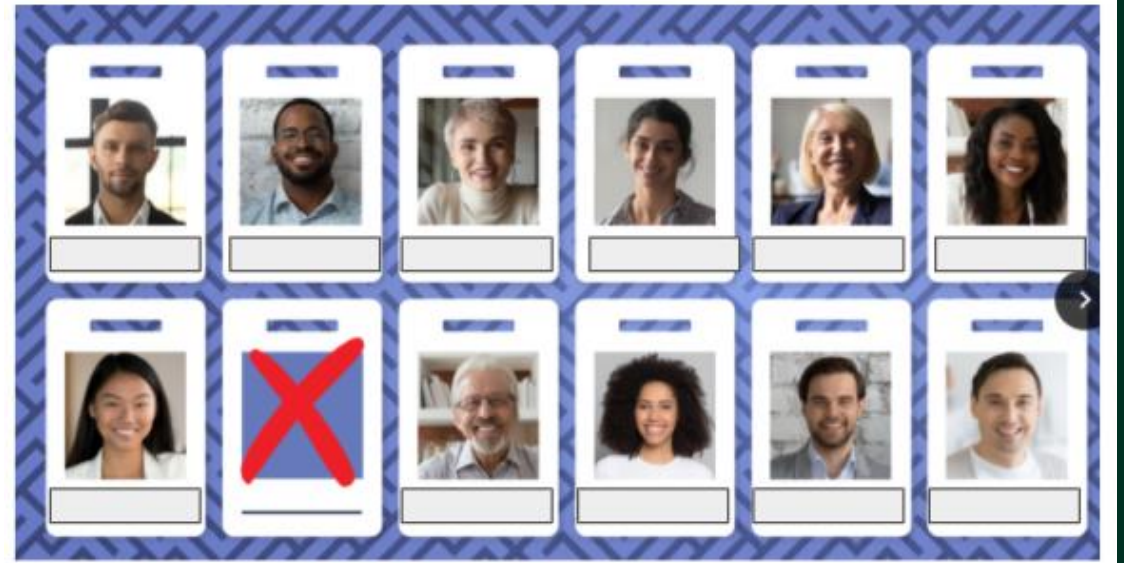

Employee Photos

One of the puzzles uses pictures of employees, to work out a logic based puzzle.

We can replace these photos with ones of your employees, to make it more personal!

WHAT WE NEED

- 11 photos of willing participants
- At least 1 week ahead of booking

Poster Puzzle

One of the puzzles involves a poster, segmented into four squares. It is an observation and image match based puzzle.

We can replace the composite image with one consisting of your logos and products!

WHAT WE NEED

- Product imagery
- Several different images to make it work well

Room Items Puzzle

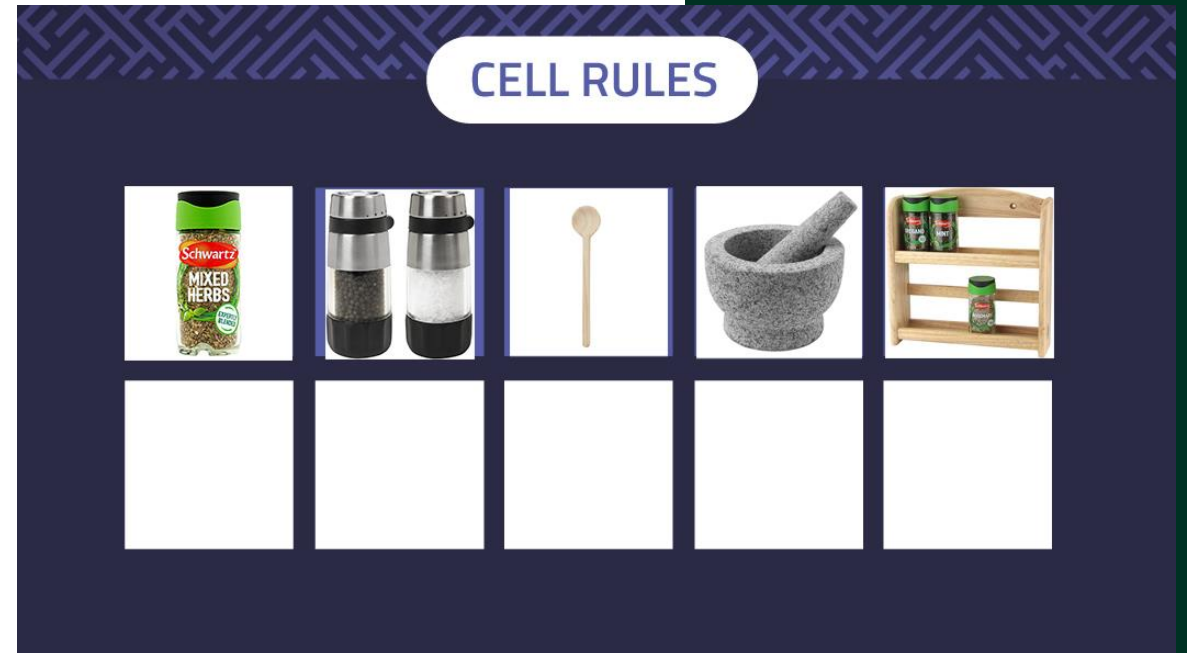

One of the puzzles involves observing items around the room and counting how many in total there are of each.

We can change the items counted, introducing other props into the room specific to your storyline!

See an example to the right.

WHAT WE NEED

- Agreement on items/props
